## New Product Announcement

### Power Plaza, Inc Introduces New 60 Watt AC/DC Converters

**Santa Ana, CA – September 15, 2010** – Power Plaza Inc. announced today the latest addition of their encapsulated FS60 Series, available in PCB Mount, detachable screw terminal block or with spring clamp terminals. These are high efficiency AC/DC Converters that provide up to 60 watts of output power. This product features wide input voltage from 85-264 VAC. There are 2 standard modules with regulated 12 and 24 VDC output. It has wide operating temperature from -20C to +70C. The FS60 series measures (3.7 x 2.0 x 0.8 inches) without chassis and (4.5 x 2.3 x 1.08 inches) with chassis mount terminal block.

The FS60 Series has a 5 year warranty and is available from franchised distributors or direct from Power Plaza. For more information or a datasheet with complete product specification, visit [www.powerplazaus.com](http://www.powerplazaus.com) or contact Power Plaza sales support at 949-553-1970.
